

Sumedh Jaltare

Pune, MH — jaltaresr@gmail.com — Portfolio — GitHub — LinkedIn — +91 9765586498

Summary

Full-stack software engineer experienced in building scalable, production-ready web applications with **React**, **Node.js**, **FastAPI**, and **PostgreSQL**. National hackathon winner with hands-on exposure to **system design**, **LLM integration**, and **cloud deployment**.

Achievements

National Level Hackathon Winner – Best Solution Award, AISSMS Hackathon 2026

Best solution among **50+ teams** – AI-assisted healthcare platform.

Adobe India Hackathon 2025 – Round 2 Qualifier 2025

Advanced from **85,000+** registrations; Round 2 among **4,000** qualifying teams, team of 3.

- Startup Pitch Finalist – 3 ideas pitched, Udyamotsav (10,000+ participants)
- Runner-up – BITBLAZE, Bharati Vidyapeeth Pune
- Finalist – National Level AI Summit
- Finalist – National Tech Exhibition, Bangalore
- Solved **100+ Data Structures & Algorithms (DSA)** problems on LeetCode

Projects

AyuPlus – Multi-Clinic Management Platform GitHub

Stack: React, TypeScript, Node.js, PostgreSQL, Supabase, Edge Functions, JWT, REST APIs

- Architected and **deployed** a full-stack clinic management system supporting appointments, billing, and patient records; designed a normalized PostgreSQL schema with referential integrity across **100+ data entries**.
- Built a scalable React + TypeScript frontend with Supabase auth and **serverless Edge Functions**; achieved **sub-200ms API response times** through optimized query design and indexing.
- Implemented **Row-Level Security (RLS)** in PostgreSQL for complete multi-tenant data isolation, enabling the system to scale across multiple independent clinics.

Patient-Centric Healthcare Platform – Hackathon Winning Solution GitHub

Stack: FastAPI, Python, PostgreSQL, LLM APIs, REST APIs, Geolocation, Docker

- Led a team of 3 to design and ship a **FastAPI** REST backend for AI-assisted symptom triage and geolocation-based hospital routing across **10+ hospitals** — built end-to-end in under **48 hours**.
- Integrated an **LLM-assisted clinical reasoning** pipeline; improved triage accuracy to **89%**. Won **Best Solution** among 50+ competing teams at a national hackathon.
- Containerized services using **Docker** for reproducible deployment; implemented a **CI/CD workflow** for automated testing and delivery.

PDF Analyzer GitHub

Stack: Python, FastAPI, REST APIs, PDF parsing libraries, Docker

- Automated structured data extraction from **15+ PDF document types**, reducing manual processing time by **70%**; designed a clean REST API and containerized the service with **Docker** for portable deployment.

Technical Skills

Languages: JavaScript, TypeScript, Python, C++, SQL

Frontend: React.js, Vite, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, Flask, REST APIs, WebSockets, JWT, Microservices

Databases: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: Supabase, Edge Functions, Vercel, Docker, Git, GitHub, CI/CD Pipelines

ML & AI: LLM APIs, Scikit-learn, Pandas, NumPy

Practices: System Design, Data Structures & Algorithms, Agile/Scrum, Unit Testing, Code Review, REST API Design, Version Control, MS Office Suite (Word, Excel, PowerPoint), Tableau

Experience

Design and Media Head, App Club – PES Modern College of Engineering Jun 2025-2026

Developed **10+ responsive UI assets** using Figma and HTML/CSS; coordinated 3 sub-teams and introduced streamlined delivery workflows, reducing turnaround time by **25%**.

Head of Media and Design – MPULSE, National Level Tech Fest 2026 – 2026

Led media operations for a festival with **32+ events** and **500+ participants**. Managed a cross-functional team of 6; delivered **40+ promotional assets** across design, branding, and media verticals on schedule.

Project Lead, National Techno Exhibition Oct 2025

Presented full-stack architecture and system design decisions to industry judges and **200+ attendees**; demonstrated live product under evaluation conditions.

Education

Pune University Expected May 2027

Bachelor of Engineering in Information Technology **CGPA: 8.30 / 10**

Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP, Software Engineering
